

# mobile again!

You have received an injury or suffered from a disease of Your lower foot, and now You need to use crutches till having cured Your troubles. But because of using crutches You even have more troubles: pain in the back, shoulders, arms, elbows, and wrists.

The **genuS** kneewalker can help to reduce these troubles! The only condition: the knee of the injured leg can become bended and strain can be put on it.

You will gain more mobility with the **genuS** kneewalker!

The **genuS** kneewalker can be mounted on every comon crutch. You can use it either for the right leg, and by turning it 90 degrees also for the left leg.

**GENUS**  
**KNIE S TÜTZE**

The following benefits will appear:

- Reduction of the weight - loading on wrists, arms, elbows, back, and shoulders, by that You will have less problems there.
- Safe standing, both hands can remain free! By this less restrained habits and more quality of life!

- The healing process can be improved by putting less pressure on injuries.
- Safer walking with crutches by adding the **genuS** kneewalker.
- Less overstraining of the healthy leg, no more one - sided weight on the hip.
