

# although mobile without prothesis!

You have a leg prothesis, but in some situations You can't or don't want to use it:

- At home or in a hotel when, for instance, You have to go to the bathroom at night.
- When Your prothesis must get serviced, cleaned, or repaired.
- When the prothesis once doesn't fit, or when there is pressure pain in the stump, because it is swollen.
- At the pool, the beach, or under the shower, for instance after sports, or when You are sweating inside the prothesis.

In all those situations You are use crutches, but cause of using them You can get problems in back, shoulders, arms, elbows, and wrists. Moreover Your mobility is reduced, and You have no free hands due to the crutches as well!

The **genuS** kneewalker can help to reduce these troubles!

The only condition: You are able to put strain on Your stump.

You will gain more mobility with the **genuS** kneewalker!

The **genuS** kneewalker can be mounted on every common crutch. You can adjust it either for the right leg, and by turning it 90 degrees also for the left leg.

The following benefits will appear:

- Reduction of the weight - loading on wrists, arms, elbows, back, and shoulders, by that You will have less problems there.
- Safe standing, both hands can remain free! By this less restrained habits and more quality of life!

- More mobility at home, in the hotel, at the beach.
- Safer walking with crutches by adding the **genuS** kneewalker.
- Less overstraining of the healthy leg, no more one - sided weight on the hip.
